Experience

- System and Software Consulting Group Inc., **Software Developer I (Trainee)** Makati City, Philippines
Sept 2025 – Dec 2025
4 months
- Contributed to the enhancement and maintenance of web-based systems using **C# ASP.NET**, **MS SQL**, and **AngularJS**, improving overall functionality and performance.
 - Collaborated closely with the Lead Developer in resolving issues and optimizing features for the company's revamped corporate profile website.
 - Actively participated in daily Agile/Scrum meetings, contributing to team discussions, progress tracking, and task planning.
 - Assisted in debugging, troubleshooting, and performance tuning during the system maintenance phase, helping ensure system stability and reliability.
 - Supported the successful deployment and continuous improvement of the company's updated web platform.
- Mtech Labs Inc., **Mid-Level Frontend Developer** Cebu City, Philippines
Apr 2024 – Aug 2025
1 year 5 months
- Developed and maintained **SEO-optimized WordPress websites**, ensuring high performance, responsiveness, and accessibility across devices.
 - Transitioned to modern frontend development, building scalable web applications using **React** and **Next.js** with efficient state management practices.
 - Led frontend development for two React-based projects, including **Vacation Nurse** and **MChat**, a real-time chat application leveraging **Next.js**, **Socket.IO**, and backend integration with **NestJS**.
 - Took on **Project Lead responsibilities**, coordinating tasks, monitoring progress, and ensuring timely delivery of key features.
 - Collaborated with cross-functional teams—including designers, HR, and project managers from Japan—to accurately translate requirements and designs using tools like **Figma**, **Adobe XD**, and translation platforms (e.g., Google Translate, DeepL).
 - Ensured alignment between design specifications and implementation, delivering user-friendly and visually consistent interfaces.
- Freelance, **Frontend Developer** Remote
Dec 2023 – Jan 2024
2 months
- Delivered responsive WordPress website using Elementor Theme.
 - Researched and populate content for Canning Bridge Auto Lodge website.
 - Created custom UI solutions based on client requirements.

DevTeam, **IT Technical Support** Bacolod City, Philippines
July 2023 – Nov 2023
5 months

- Delivered technical support for inventory and order management systems through Intercom, including direct client collaboration to troubleshoot and resolve issues in real time.
- Utilized Postman and Datadog to investigate API responses, perform log analysis, and identify root causes of system issues.
- Partnered cross-functionally with internal teams to drive timely resolution of technical concerns and enhance overall system performance.

Binary Anvil East Inc., **Junior Frontend Web Developer** Bacolod City, Philippines
May 2020 – May 2023
3 years 1 month

- Developed and maintained responsive frontend components using LESS, XML, HTML, PHTML, JavaScript, and jQuery, ensuring consistency with design and performance standards.
- Supported and enhanced e-commerce websites built on the Magento 2 platform, optimizing functionality, usability, and overall user experience.
- Contributed to end-to-end website development projects with 3–6 months delivery timelines, collaborating with cross-functional teams to meet project milestones and quality expectations.

Above The Fray Design, Inc., **Junior Backend Developer** Bacolod City, Philippines
Aug 2019 – Feb 2020
7 months

- Assisted in the development of a **Magento 2–based eCommerce platform** from the ground up, supporting core backend functionality and system architecture.
- Customized and enhanced the **Magento 2 admin panel** to align with specific business requirements, improving usability and operational efficiency.
- Collaborated closely with the Lead Backend Developer to implement and maintain backend features and integrations.
- Worked with frontend developers to ensure seamless **API integration**, enabling smooth data flow between backend services and user interfaces.
- Participated in **Agile/Scrum ceremonies**, contributing to sprint planning, daily stand-ups, and team alignment.

Binary Anvil Inc., **Backend Developer** Bacolod City, Philippines
May 2017 – Aug 2019
2 years 4 months

- Developed and customized Magento modules using PHP and MySQL.
- Gained strong foundation in e-commerce architecture.

Education

Bachelor of Science in Computer Science, University of St. La Salle
