EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

University of St. La Salle

2012 - 2016

PROFILE

Frontend Developer with 4+ years of experience delivering modern, scalable, and user-centered web applications. Proficient in React, Next.js, TailwindCSS, and state management libraries, with additional experience in WordPress, Magento 2, and headless CMS. Passionate about continuous learning, currently exploring Payload CMS and tRPC to build type-safe, scalable architectures.

EXPERIENCE

MID-LEVEL FRONT END DEVELOPER

April 2024 - August 2025, Cebu City Philippines

Mtech Labs INC.

- Initially was hired to develop and maintain WordPress websites, delivering responsive, SEO-friendly, and customized solutions tailored to client needs.
- Transitioned into React development, building modern and scalable web applications using React, Next.js, Zustand, React Hook Form, and NextAuth.
- Utilized tools such as Postman for API testing and debugging, and collaborated with product/design teams using Figma and Adobe XD to clarify requirements and improve customer-facing experiences.

FREELANCE FRONT END DEVELOPER

December 2023 - January 2024

- Freelancing as a part-time Frontend Developer, specializing in building responsive web pages using Wordpress and Elementor plugin.

IT TECH SUPPORT

July 2023 - November 2023, Bacolod City, Philippines

DEVTEAM

- Responded to client inquiries regarding inventory, order statuses, and system issues through Intercom, ensuring timely and accurate communication.
- Collaborated with internal teams to escalate and resolve complex cases, ensuring minimal business disruption for clients.
- Documented solutions, RCA findings, and best practices to enhance the knowledge base and improve support efficiency.
- Utilized tools such as Postman and DataDog for debugging and log analysis.

JUNIOR FRONTEND WEB DEVELOPER

May 2020 - May 2023, Bacolod City, Philippines

Binary Anvil East Inc.

- For the first two years, I was assigned to the Support Team, where I maintained Magento e-commerce websites and resolved production bugs and technical issues.
- Transitioned to New Builds Department to develop Magento 2 E-Commerce websites using Magento Page builder, CSS preprocessors (LESS), XML, HTML, PHTML, JS, JQUERY.

JUNIOR BACKEND DEVELOPER

August 2019 - February 2020, Bacolod City, Philippines

Above The Fray Design, Inc

- Assisted the Senior Backend Developer in building and customizing Magento e-commerce websites, ensuring functionality and alignment with client requirements.
- Extended and enhanced Magento core features within the admin panel to improve usability and meet business needs.
- Collaborated with frontend developers to ensure seamless integration between backend logic and user-facing components.

BACKEND DEVELOPER

May 2017 - August 2019 Bacolod City, Philippines

Binary Anvil Inc

- Entry point of my Web Developer career where I gained hands-on experience in Magento architecture, PHP, MySQL, and module customization.
